QuikClot® Combat Gauze™

Application and Training Guide

QuikClot® Combat Gauze™

Hemostatic Gauze

Controls moderate to severe blood loss by promoting coagulation One Sterile strip 3 in x 4 yards (7.5 CM x 3.7 M)

What is QuikClot® Combat Gauze™, how does it work, and why use it?

- QuikClot® Combat Gauze™ causes rapid localized coagulation and the formation of a stable blood clot in a variety of wounds. It does not absorb into the body, and is safe to leave in the wound until further medical care is available.
- QuikClot® Combat Gauze™ does not produce any heat.
- QuikClot® Combat Gauze™ controls bleeding faster than conventional methods.
- 3 year shelf life.

How to use QuikClot® Combat Gauze™

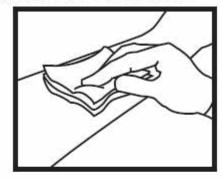

Read Package Directions Before Use

(Directions are on the product package)

DIRECTIONS FOR USE

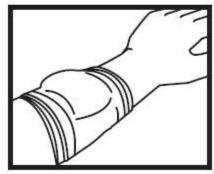

1. Open package and remove Combat Gauze. Keep the empty package.

2. Pack Combat Gauze into wound and use it to apply pressure directly over bleeding source. (More than one Combat Gauze may be required).

3. Continue to apply pressure for 3 minutes or until bleeding stops.

4. Wrap and tie bandage to maintain pressure. Seek medical care immediately. Show PRODUCT REMOVAL directions on package to medical personnel.

PRODUCT REMOVAL: 1. Gently remove gauze from wound. 2. Thoroughly irrigate wound.

Perform Proper Body Substance Isolation (BSI) procedures.

Tear open package of QuikClot® Combat Gauze™

Open clothing around wound. Remove excess pooled blood from wound, while preserving any clots already in the wound if possible.

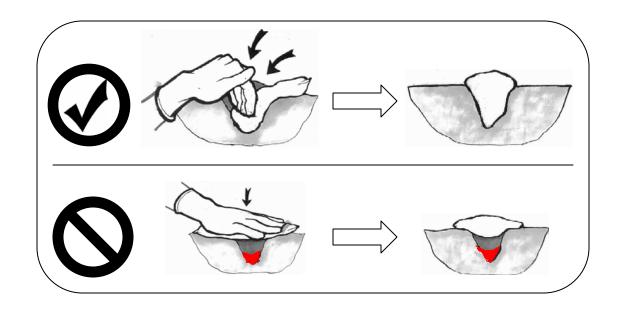

Locate source of bleeding and pack QuikClot® Combat GauzeTM into wound. Use as much gauze as needed to stem blood flow. Remainder of roll can be used on top of wound or to wrap wound as injury requires.

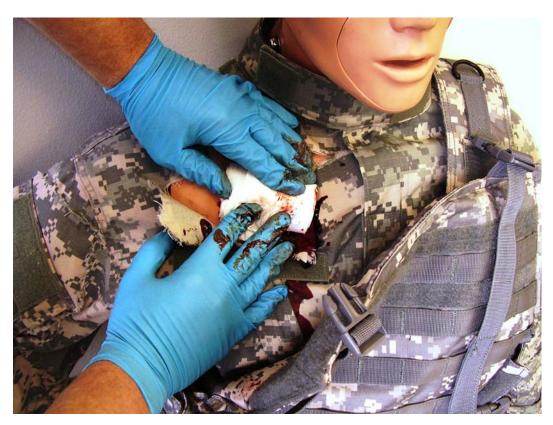

Pack QuikClot[®] Combat Gauze[™] tightly and directly onto bleeding source. More than one may be required.

Quickly apply pressure until bleeding stops. Suggested time 3 to 5 minutes of continuous pressure.

Leave QuikClot® Combat Gauze™ in place. Wrap to secure the product in the wound.

Patient Transport

 Do not remove bandage or QuikClot® Combat GauzeTM.
 Elevate and evaluate as needed.

 Transport to next level of medical care as soon as possible.

Make sure empty package is attached to or sent with the patient - removal instructions are on the back of

package for emergency room staff.

Medical Facility

PRODUCT REMOVAL: 1. Gently remove gauze from wound. 2. Thoroughly irrigate wound.

Warnings!

- •For external use only.
- •Avoid Contact with eyes.

Feedback

We listen to your feedback. Please fill out an evaluation form.
